

MANY IMPROVEMENTS AT THE CARSON MINT

Ray Baker, director of United States mints, who arrived in Reno Wednesday night en route to San Francisco to attend a conference of the mint superintendents of the nation, visited Carson before resuming his journey, says the Carson Appeal.

During Mr. Baker's brief stay here he was in session with Superintendent Ryan of the local mint and with him went over the situation as to improvements needed in the mint building. In view of the probability that the business of the establishment will be considerably enlarged in the coming months many suggestions were made along these lines.

For the interior of the building many improvements were suggested, chief of which will be the enlargement of the rooms for the reception of bullion and ore samples, new floors in various parts of the building, new hoods for the furnaces and the separation of the assay rooms for bullion and samples. For these latter new departments will be created and will be kept apart.

Mr. Baker stated that a supervising architect would be sent out from Washington immediately to look after these details and on his investigation and report after returning to the capital contracts for the work would be established.

The improvements will entail the expenditure of several thousands of dollars.

The three mints of the United States are now working overtime in their efforts to supply the country and two or three foreign nations with an adequate supply of metal coin and throughout the United States, Mr. Baker said, there is an incessant demand for more silver money. Mr. Baker is firm in his belief that the high price of silver has not yet been reached and to the reporter he stated that there was the possibility that it would climb the ladder until its old price of \$1.29 per ounce was again established.

OVER \$800,000 WORTH AUTOS ESCAPE TAXES

The report of the committee on automobiles made to the state board of equalization, showed that although 5261 machines have been licensed in Nevada, this year, only 4073 or approximately 65 per cent have been listed on the assessment rolls. The valuation placed on the machines assessed is \$1,504,021. It is accordingly figured that machines representing a valuation of \$808,079 have not been assessed. In its report the committee recognized the advisability of introducing a system that will insure the assessment of at least all licensed machines and recommended that applicants for licenses be required to fill out blanks in triplicate and thus furnish one copy to be forwarded by the secretary of state to

the assessor at the applicant's place of residence.

The committee's investigation showed that 232 motorcycles have been licensed and only 192 of them have been assessed. No motorcycles were assessed in Clark, Elko, Eureka, Humboldt, Lander, Lincoln, Lyon or Mineral counties, though 23 machines have been licensed in those counties, according to the report.

The committee's tabulation of the licensed and assessed automobiles in various counties of the state is as follows:

County	License Record	Assessor's Report
Churchill	375	290
Clark	367	192
Douglas	259	171

Elko	612	377
Esmeralda	258	149
Eureka	83	50
Humboldt	633	400
Lander	176	86
Lincoln	65	68
Lyon	415	212
Mineral	223	189
Nye	476	485
Ormsby	154	121
Storey	55	44
Washoe	1667	963
White Pine	443	276
Totals	6261	4073

Percentage 65.05 per cent.

It is estimated that about 925 auto licenses have been issued since the assessors ceased making out their rolls.—Carson Appeal.

NO MARKET FOR FOOD RAISED IN COLORADO

(By Associated Press.)

DURANGO, Colo., Sept. 10.—Producers and business men of the San Juan basin district today telegraphed appeals to Herbert Hoover, food administrator, and other government officials asking aid in marketing great volumes of fruit and vegetables raised in the valley in response to the country's appeal for more food. Unless some solution is found much of the fruit and produce will be lost, it is feared.

P. Wilson, secretary of the Durango exchange. The statement says: "In response to calls from Washington for planting of every available foot of ground to help the food shortage, farmers in this district have responded to such an extent that nearly six times the normal production will result in the San Juan basin. In addition to a fruit crop which is the heaviest known here for some years."

"Over one million bushels of potatoes and two million pounds of beans are nearly ready for harvest in the district and there are no prospects for a market."

SOCIALISTS BREAK OUT IN MEXICO

REVOLUTIONARY MOVEMENT ON BORDER SAID TO BE OF NO IMPORTANCE

(By Associated Press.)

LOS ANGELES, Sept. 10.—A new Mexican revolutionary movement reported by Mexican officials in El Paso, Texas, as having been started in Los Angeles and on the Pacific coast, under the leadership of "Dr. Ail," is not regarded here seriously by supporters of the Carranza government, according to J. M. Carpio, Mexican consul here.

"I have heard rumors of such a movement," said Mr. Carpio tonight, "but I have paid little attention to them."

"Dr. Ail," Mr. Carpio said, "is the pen name of Gerardo Murillo, a Socialist writer and former friend of General Carranza, and who is now living here." Mr. Carpio said he doubted Murillo's ability to read a formidable revolution.

DIED FROM EXCESSIVE HEAT IN IMPERIAL VALLEY

I. N. Frenchy received a message bringing the sad news of the death of his brother, J. M. Frenchy, at El Centro in the Imperial Valley, California last Saturday. The mother, who makes her home with I. N. Frenchy, left Fallon to attend the funeral.

Only a few days previous to the first, J. M. Frenchy had written his Fallon relatives that 14 deaths had recently occurred in the Imperial valley from the excessive heat. Very shortly after the receipt of the letter came the telegram announcing that he had died from the same cause.—Fallon Eagle.

SOLDIERS SHOOT AT LABOR PARADE

STRIKERS TURN OUT IN DEFIANCE OF THE CIVIL AUTHORITIES

(By Associated Press.)

SPRINGFIELD, Ill., Sept. 10.—Two men were shot and several others were bruised and cut here this afternoon when troops of the Ninth Illinois infantry broke up a parade intended as a demonstration in support of the street car strike which has been in progress for some weeks. Neither of those shot was seriously wounded. The parade had been forbidden by police authorities, as a precaution against disturbances by car strike sympathizers.

WANT CONNECTION WITH ANOTHER MINE'S RAILROAD

The Virginia Louise Mining company has requested the railroad commission to compel the Prince Consolidated Mining and Smelting company to perform certain acts that would put the latter named company in the class of common carriers in this state. The Prince Consolidated operates eight miles of railroad, for its own use solely, between its mine and Pioche. The Virginia Louise company wants a spur track constructed, thus making rail connections between the Virginia Louise mine and the city for the transportation of freight. It is also asked that the Prince Consolidated be required to file tariff schedules as common carriers. It is said to be the first case of the kind brought before the commission.

APPEAL OF FOREIGN BORN TO MILLIONS OF OTHERS

Chief Justice Andrew A. Bruce of the supreme court of North Dakota, speaking at dinner, aroused the enthusiasm of the lawyers when he said: "I speak from the viewpoint of the foreign born. I, and millions of others like me, came to this country alone, without money and without friends. We sponged on all that American had, her free lands, her free schools, and, above all, her spirit of openhearted comradeship. She owed us nothing but she gave us all. We swore allegiance to her flag, her constitution and her laws. We would be recreants, ingrates, perjurers and curs if, in the hour of her need we counselled with her enemies and were disloyal to her cause."

\$10,000,000 INCREASE IN THE STATE ASSESSMENT

Though not official, it is stated that when the state board of assessors conclude their labors it will be found that Nevada's assessed worth has increased \$10,000,000 the past year. The assessment for 1916 showed a valuation of \$176,000,000, but that of 1917 will reach \$186,000,000. The increase mainly occurs in mining and realty holdings.

The bullion tax this year will cut a large figure in the matter of revenue, for while there may be an increase in the bulk of the product, the value of silver has so advanced that the income from that source will be materially enlarged.—Carson Appeal.

Not True to Life.
"How very few statues there are of real women."
"Yes; it's hard to get them to look right."
"How so?"
"A woman remaining still and saying nothing doesn't seem true to life."

CONSCRIPTION CASES PASSED ON BY STATE BOARD

The state exemption board has passed on cases from Nye county with the following results: Henry Abernethy, call, affirmed; Andy Zadro, call, reversed; Sam Du Pratt, call, affirmed; John Wm. Connors, discharge, affirmed.

HUNDREDS ATTEND THE BARBECUE HELD AT PATTERSON'S RANCH

Over 200 motored over to Fish Lake valley yesterday and the previous evening to be the guests of Mr. and Mrs. Dave Patterson at their magnificent ranch nestled between the towering peaks of the White mountains on the west and the Red mountain range on the east. Everybody came with appetites whetted for the good things that can only be found on a ranch where they are dependent on their personal efforts and nature's abundant stores for the full enjoyment of existence. Those who had the privilege of attending went away fully satisfied with the attentions of their hosts and after expressing a hearty wish that the treat would be repeated so they could indulge once more in the offerings of a generous hospitality. The Patterson ranch is a perfect beauty spot devoted principally to raising hay for feeding to the vast herds of white faces that are so fat and luscious looking that

the guests just longed for the hour when they could cut into a slice of the rich meats prepared by a couple of chefs familiar with the old fashioned preparations for a barbecue. The east was served outdoors in a bright sunshine tingling with keen ozone laden breezes fragrant with the aroma of sweet clover from the banks of the adjacent creek which tumbles and revels through the domain.

Mr. and Mrs. Patterson were up before dawn to receive the guests whose warning horns gave notice of their coming and it was not until the sun went down on the scene that the tired but happy entertainers found a moment of respite from their pleasure of receiving and billeting the arrivals. The affair was under the auspices of Goldfield lodge of Elks, whose jurisdiction extends over the Inyo county district of California, and the boys from the southern camp made sure of getting there on time to assist in arranging the details by going out the previous evening. A regular squadron of cars conveyed Tonopah Elks and their guests while scores came from Big Pine, Bishop and Inyo county. The ladies of whom there were several score helped in making the guests at home. There was no formality and every one at once constituted himself or herself a committee of one to see that the late comers were properly received and bestowed.

The last of the guests reported on the ranch about noon just as the chefs were sharpening their keen knives for the carving process. Doughnuts, snails, good country home made bread and spuds were there in prodigious quantity. Each person helped himself to a liberal service and then everybody divided off into groups and proceeded to get away with the tempting edibles, washed down with rich coffee or water from a beautiful stream of snow water that meanders through the ranch.

The ride of 75 miles in a bracing mountain atmosphere was the only sauce piquante required. A band of musicians recruited from the neighboring ranches was present and gamies and athletic sports served to fill in the afternoon until the waning sun warned the picnickers that it was time to crank up and begin the homeward journey. The affair was not attended by a single accident or breakdown and everybody returned home in the best of spirits thankful to their hosts for the splendid and novel diversion.

The Patterson ranch was known as far back as the seventies as one of the show places of the country when it was operated as the Bill Harrell ranch. Afterwards James and William Porman bought the place which they operated together with the Oatis ranch, 16 miles above until the lower ranch passed into the hands of the present owner.

CROP OUTLOOK FOR THE STATE

PROSPECT FOR BOUNTIFUL HARVEST IN NEVADA UNEQUALLED

WASHINGTON, Sept. 10.—A summary of the September crop report for the State of Nevada is as follows:

Winter Wheat—Preliminary estimate, 546,000 bushels; production last year (December estimate) 490,000 bushels.

Spring Wheat—September 1 forecast, 1,100,000 bushels; production last year, 1,102,000 bushels.

Oats—September 1 forecast, 625,000 bushels; production last year, 602,000 bushels.

Barley—September 1 forecast, 496,000 bushels; production last year, 492,000 bushels.

Potatoes—September 1 forecast, 2,910,000 bushels; production last year 2,660,000 bushels.

All Hay—Preliminary estimate, 949,000 tons; production last year, 711,000 tons.

Apples—Agricultural Crop—September 1 forecast, 65,000 barrels of 3 bushels; production last year, 14,000 barrels.

The first price given below is the average on September 1 this year, and the second the average on September 1 last year: Wheat, 262 and 155 cents per bushel. Corn, 300 and 150. Oats, 150 and 74. Potatoes, 21 and 92. Hay, \$14 and \$10 per ton. Eggs, 48 and 35 cents per dozen.
